

Dream Corner

When Mona asked me to share about the dreams that have come true because of Mary Kay, I immediately thought of the American Dream and the day I was recruited by my sister at a skin care class in September of 1995. As a single parent, it is very rewarding to be able to get fully involved in my children's activities, be the owner of a beautiful home in a very nice neighborhood, be financially secure, debt free, and be successful at what I do. Being a single parent is not easy but with God as my partner, everything seems much easier. Mary Kay has helped me to become and grow as a leader and to always set goals and work hard for them. My children have also learned a thing or two from Mary Kay like goal setting and leading by example and that is another dream come true. But one dream that is coming true this year is that we will be able to take a long awaited family vacation to Disneyworld. Because of Mary Kay....Dreams really come true!!

Cadillac Senior Director Diana Pena

Each month we will be featuring directors who have a dream come true because of their Mary Kay business. These stories can be used to inspire one another to help each one of us in our dreaming and sharing with prospects. If you have a story to submit, let me know.
