

If people ask me what my Life's Dreams are...I tell them, because of Mary Kay, I am living them! The lifestyle has been more than I could have imagined. More growth, more income, more joy, more everything. I have much gratitude and find much satisfaction in that. I realized early that I didn't want to miss any opportunity in this life because time goes by quickly, and if I didn't try...or because I didn't Dream Big enough I would miss out or others would miss out. That is why National is the next step.

I love reviewing the memories from the day I signed my agreement, from Mary Lou and Mona's promptings, to now. It all started out as a journey of Hope...the hope that maybe I could raise my 3 children with a secure income and the flexibility as a stay at home Mom. I remember saying to myself, "I don't know how to do this MK thing", but I made a commitment to do it, and that was that. I knew there was no other option. So, I showed up at the meetings and taught Skin Care Classes every week. Thank heavens I took it seriously and enjoyed it. My 3 children, Kade, Britney and Skyler are now grown...When I asked them what they liked about my MK business, Kade said that he loved that I was available. Britney said that she loved that I cheered her on more than she saw most moms do, and Skyler said he thought it was cool when he brought his dates over, they loved the Makeup room, but he also said that he appreciated that I provided well. As I see them successful and happy in their lives today, graduating from college, serving on church missions, marriages, being responsible, following their dreams, and not being afraid to try...gives me much joy.

With Rob on board, it has been more complete! Together we have 7 children and have had so much fun...birthdays, Christmas, 2nd Sunday of the month "Kid's Dinner" which keeps us close. We have had many opportunities and reasons to travel the world, but the latest vacation topped it all! After planning for a year, we took ALL our 7 children and spouses, and a grand baby for a week to a resort in Cabo San Lucas...one of our favorite vacation places, recommended by Mona and Ken. We all had a blast, did every water sport possible and laid by the fabulous pools. When we get together, these are the times we talk about and laugh about. Memories that last a lifetime. Priceless!

Now we are excited about building our 1st home together on a beautiful gold course...Rob's Dream! One more Mary Kay Dream...knowing all of you, and having so many wonderful beautiful girl friends.

Hugs, Kym Kirk
