

# *Where in the world...*

...are my children.

By Senior Director Lori Whitnell

Our oldest son Brad has been in Iraq since January. He is a First Lieutenant with the 1-5 Cavalry and is currently the XO for his company. While it has been a long year, his Company and Battalion have accomplished some great things this year working with the Iraqi people and Iraqi Army. He will be returning to Fort Hood Texas December 11. He and his wife Laura Leigh will be moving into a rental house outside of Fort Hood. Laura Leigh has been busy starting her own company this year, [www.laleebaby.com](http://www.laleebaby.com). Unique baby designs and monogramming. We are thankful for his safe return.

Our younger son, Bennett, graduated from Illinois Wesleyan University in May and is now living and working in Racine Wisconsin for Grainger, Inc. as a Territory Sales Rep. It has been fun to talk about his job of customer calls, cold calling, and to see his steps of goal setting, planning and working toward his goals while building his territory. He does have a company car which is certainly a marketing tool just like the Pink Cadillac. Although I think ours is a little classier! That is a big roll of black tape on the back window!
